1. Introduction and Overview

This is a starter chapter showcasing the UPC ETSEIB report template style.

1.1 Section Example

Reports in this repository follow the two-sided UPC ETSEIB format with TeX Gyre Pagella typography, custom chapter headings, running headers, and official university logos.

1.1.1 Code Listings

Source code can be presented with the predefined MATLAB style:

```
1 % Calculate system nadir
2 f_nadir = min(f_response);
3 t_nadir = t_sim(f_response == f_nadir);
```
